PROFESSIONAL SUMMARY

Full-stack developer and designer with 6+ years of experience delivering fast, responsive, production-ready web applications end to end. Strong across the stack — from pixel-perfect, accessible frontends in HTML/CSS/JavaScript, React and Next.js to secure Node.js/Express backends with REST APIs, authentication, and MongoDB/MySQL/Firebase databases. Background in graphic design brings a sharp eye for UI/UX, branding, and conversion-focused layouts. Proven freelance track record shipping complete client projects — business websites, booking systems, and web apps — with full ownership from design to deployment.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React, Next.js, Tailwind CSS, Bootstrap, Responsive & Mobile-First Design

Backend: Node.js, Express.js, REST API Design, Authentication & Authorization (JWT), MongoDB, MySQL, Firebase

Tools & Platforms: Git, GitHub, Vercel, Render, Railway, VS Code

Design: Figma, Adobe Photoshop, Canva — UI/UX design, wireframing, branding, graphic design

EXPERIENCE

Freelance Full-Stack Developer & Designer

2020 – Present

Self-employed · Remote (Nigeria & international clients)

- Design, build, and deploy complete websites and web applications for small businesses and individual clients, owning the full lifecycle: requirements, UI/UX design, development, deployment, and handover.
- Delivered production sites across multiple industries — hospitality (restaurant site with menu and reservation system), healthcare (clinic website with appointment requests), and personal branding (client portfolios and landing pages).
- Build responsive, mobile-first frontends and integrate contact, booking, and WhatsApp ordering flows that turn visitors into customers.
- Develop secure backends and REST APIs with Node.js/Express and manage data with MongoDB, MySQL, and Firebase.
- Deploy and maintain projects on Vercel, Render, and Railway with Git/GitHub version control and continuous deployment.

Graphic Designer

Earlier experience

- Created brand identities, marketing visuals, and layouts for clients using Photoshop, Figma, and Canva — the design foundation that now drives strong UI/UX decisions in development work.

SELECTED PROJECTS

Orbit RestoBar — Full website for a 24-hour restaurant & bar in Ibadan — filterable menu, gallery, table reservation system, and Google Maps integration. [HTML](#) · [CSS](#) · [JavaScript](#)

Medilab — Medical clinic website with departments, doctor profiles, and appointment request flow. [HTML](#) · [CSS](#) · [Bootstrap](#) · [JavaScript](#)

Gary Harrison — Personal portfolio designed and built for a client — profile, work showcase, and contact sections. [HTML](#) · [CSS](#) · [JavaScript](#)

Ilanding — Conversion-focused product landing page with hero, features, pricing, and call-to-action sections. [HTML](#) · [CSS](#) · [Bootstrap](#) · [JavaScript](#)

Pathfinder — Interactive route-finding project with a clean UI for exploring paths and points of interest. [HTML](#) · [CSS](#) · [JavaScript](#)

Quiz App — Interactive quiz application with instant scoring, progress tracking, and results screen. [HTML](#) · [CSS](#) · [JavaScript](#)

Live demos and source code for all projects: abdulhameed-portfolio-a15o.vercel.app
